See over for some further applications and directions for use

# Rubawrap

## Self-amalgamating Tape

Ensure the area to be repaired or protected is as clean and dry as possible

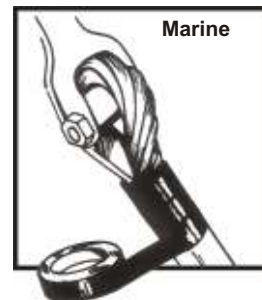

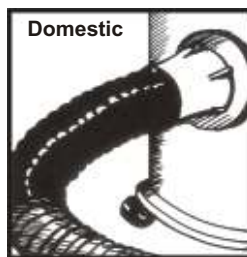

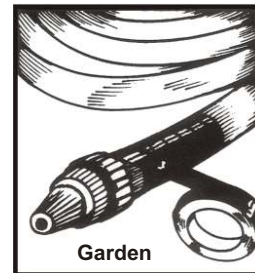

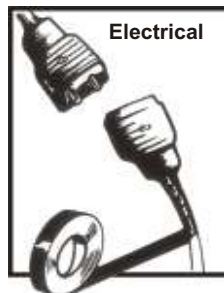

Directions for use

1. Remove the separator. Either tear off the desired length first, or peel the separator progressively when wrapping directly from the roll.

2. Apply, overlapping tape by one half, **STRETCHING WHILST WRAPPING.** (DO NOT OVERSTRETCH TAPE)

3. Reduce taping tension on last two turns.

**Rubawrap** is a strong self-amalgamating synthetic elastic tape possessing excellent high voltage properties, ozone resistance, water resistance and the ability to protect against corrosion. There is no right or wrong side to Rubawrap tape, no sticky adhesive to pick up foreign matter or to tangle together during application in close clearances.

No guarantee is given that the product will be suitable for any particular end use.

Thickness -	0.5mm
Elongation -	900%
Temperature -	-40° to +100°C
Electrical -	132kv
